

Join the Forum on Modern Finnish Technologies for Reconstruction of Ukraine

15.5.2025 in Kyiv

We are pleased to invite you to the Forum on Modern Finnish Technologies, Equipment and Experience – for the Reconstruction of Ukraine. The event is organized by Confederation of Builders of Ukraine in collaboration with EastCham and Peikko. The event focuses on

- **Architectural design and urban planning:** Finnish expertise in design, building, and developing urban infrastructure.
- **Construction materials and technologies:** Finnish manufacturer's innovations and products
- **Equipment for production and construction:** Advanced Finnish technologies

The event offers a unique chance to showcase your company and solutions to potential leads in Ukraine.

CBU, coordinating Ukraine's reconstruction, invites participants to hear from Finnish companies. Strategic partners* get a 15-minute stage presentation to an audience invited by CBU, Ukraine's largest industry association.

The forum highlights the value of cooperation and partnership in rebuilding Ukraine, leveraging Finnish business expertise.

- Find potential partners and clients
- Collaborate with construction sector manufacturers
- Showcase best practices
- Network with business leaders and decision-makers

Forum is attended by relevant public and private sector representatives from Ukraine

- Ukrainian representatives of regional and district administrations, state building authorities and public associations
- Manufacturers of building materials and structures, construction companies and developers, design and architectural bureaus

Take advantage of this opportunity to present your company's solutions directly to decision-makers and potential partners in Ukraine. Network, create partnerships, and strengthen your understanding of the current situation in the Ukrainian construction sector. **Registration open until April 15th.**

→ Registration directly to Olena Kutsai, olena.kutsai@eastcham.fi
